What is different about a WORKSTATION? These computers are designed for the heavier requirements needed for many of today's advanced software such as Adobe CS5 or AutoCAD.

» WS2000 & WS3000 series - Built around the requirements for AutoCAD, these systems are a great performance unit for this type of application without going too high in pricing.

» WS4000 series - Designed for multi-displays at high resolutions, such as needed by call centers and day traders.

» WS5000 & WS6000 series - These units feature some of today's fastest hardware to give you the power for demanding programs like Adobe CS5 or advanced AutoCAD, SolidWorks, or other high powered programs.
